

Within DVSPORT Filmroom a user can take plays from one or multiple games and combine them in a cutup. That cutup can be shared with other users on DVSPORT 360.

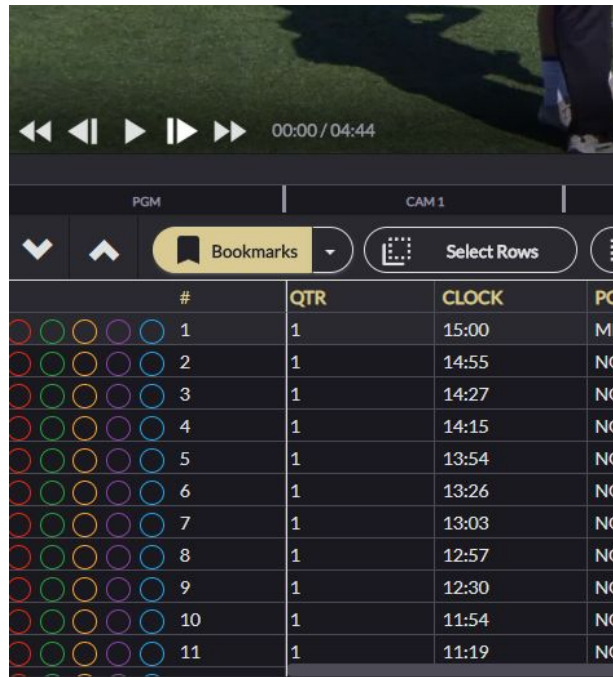

## Making A Cutup

1. Open a game within filmroom.dvSPORT360.com

2. Go to the "Bookmarks" button and turn on "Show Bookmarks". This will display five bookmarks of a different color on the bottom left of your toolbar.

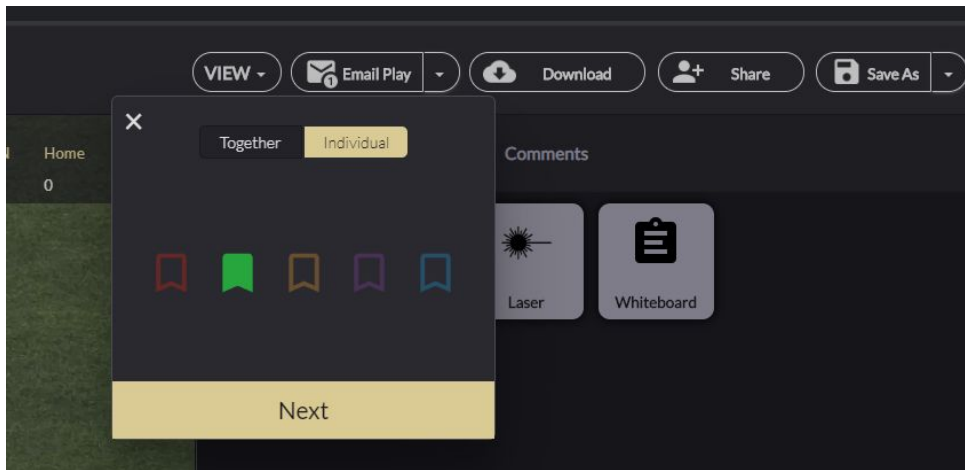

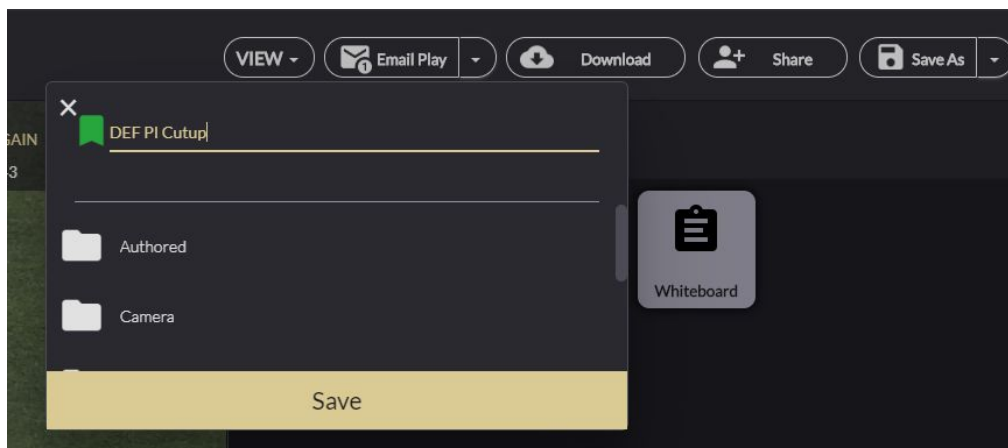

- Each time the user identifies a play they want to add to a cutup they can bookmark that play by clicking on one of the 5 bookmark colors on the left side of the playlist. You will know that a play is bookmarked because the bookmark will fill-in.
- Once you have bookmarked all the plays you want to save to a cutup, click on the “Save As” arrow button on the top right portion of the toolbar. All the plays you bookmarked will have the colored circle filled in next to the play.

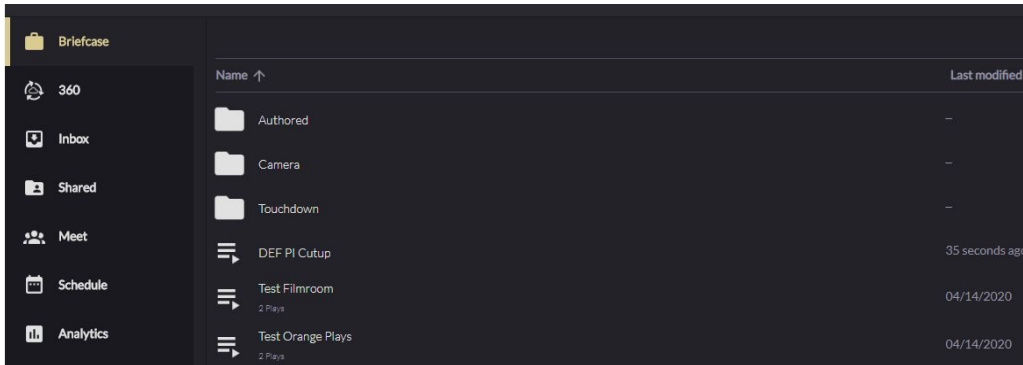

5. Select “Save Bookmarks As” to save your cutup.
  - a. If you want to combine multiple bookmarks into one cutup, you select the “Together” option.
  - b. If you want each bookmark color to be a separate cutup, you select the “Individual” Option.

7. Name the cutup and click Save.

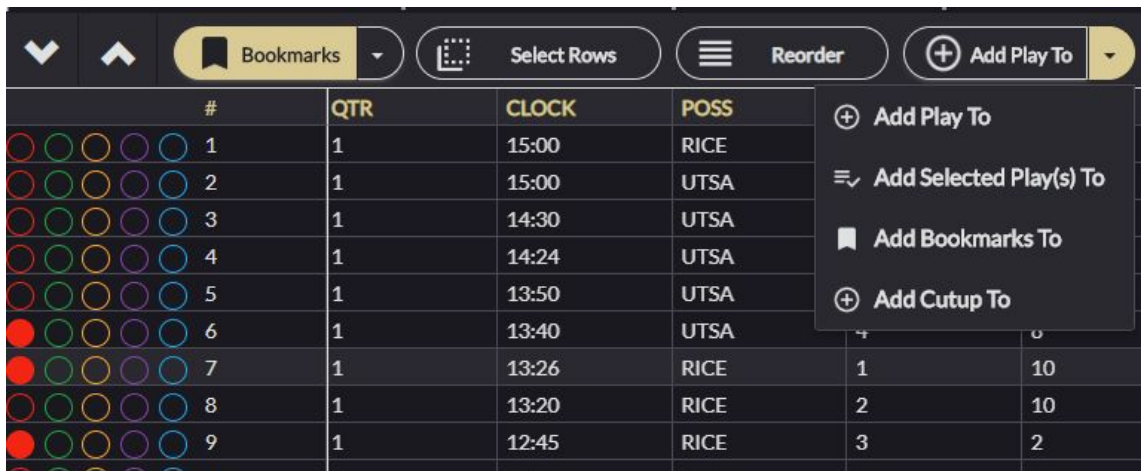

8. Your cutup will be saved to your “Briefcase”. Example: “DEF PI Cutup”

## Adding Additional Plays to a Cutup

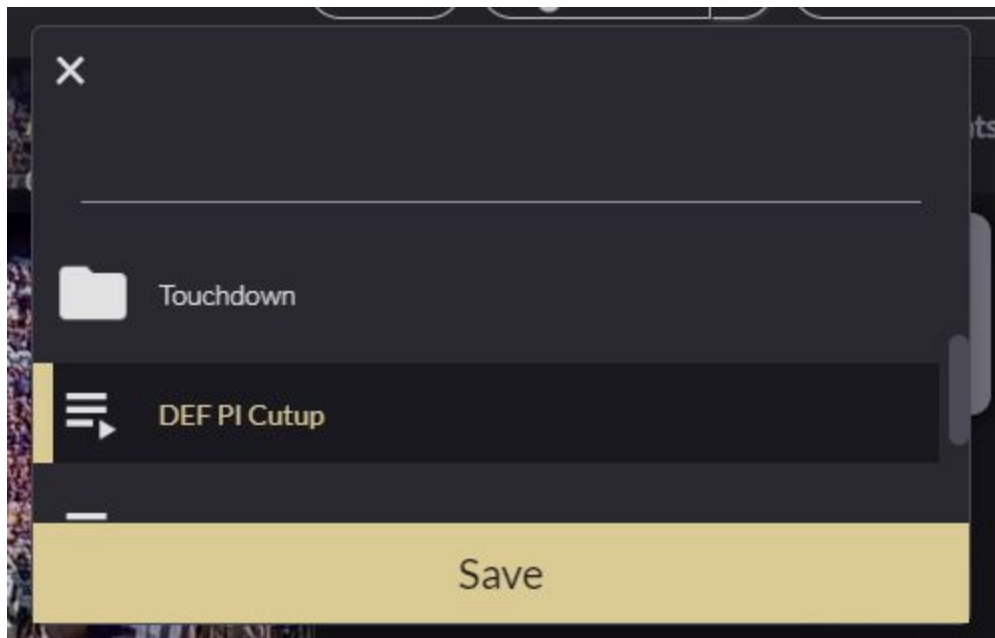

1. Follow steps #1-4 above.
2. Once the user has identified the additional plays they want to add to a cutup click on the “Add Play To” arrow.

3. Select "Add Bookmarks To"
4. Click on the bookmarks you want to add to the existing cutup and click next.

5. From the list, select the cutup you want to add the plays too and click save.

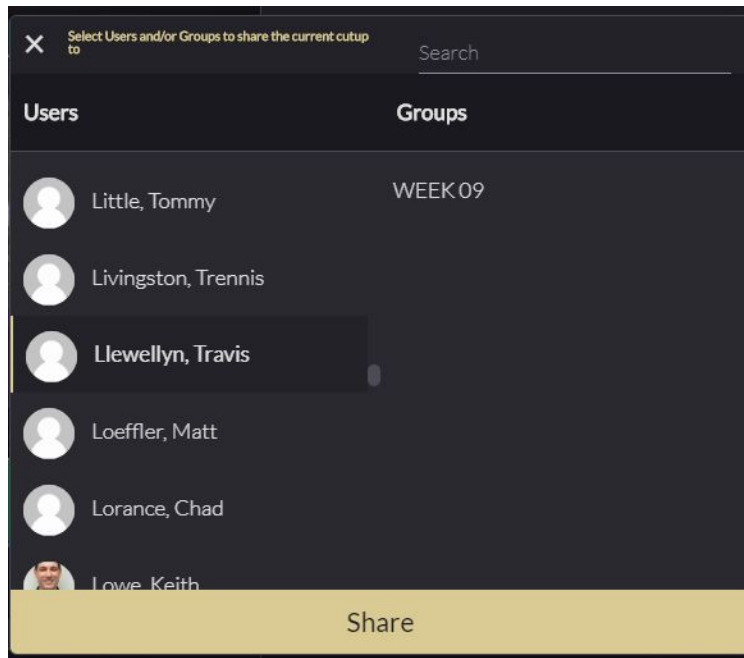

6. A green banner will pop up letting the user know the additional plays were successfully added to the cutup.

### Sharing A Cutup With Other Users

1. Open the cutup the user wants to share.
2. Click on the “Share” Icon that is located on the top right of the Toolbar.

3. Search a group or user to share the cutup. When all names have been selected, select “Share” to finish.
  - a. You can select multiple users or groups to share the cutup with.

5. The users you shared the cutup with will see the cutup under the Shared folder within Filmroom.
